

SHADOW MOUNTAIN WOMEN

Hello Ladies,

We had a great ending to our summer Bible study. May you be encouraged by these words.

Through this study, we have learned to Hold on when we want to let go, when life feels out of control, when we feel alone, when God is silent, when we are afraid, and when we have messed up. We can cling to hope when there have been moments in our lives, we feel like life is falling apart, but as we read, we are reassured in truth his promises hold us, we are rescued, and our God is the God of miracles who changes everything, and we are being held! Above all, may you remember that you are being held by the God of all creation, who loves you more than you can ask for or imagine!

In closing, enjoy this song by Lauren Daigle that relates to what we've studied. [Click here for video.](#)

Have a blessed summer!
